### Customer Details:

Founded in 1966, Customer is a private, non-profit, regionally accredited institution. The university has over 10,000 students enrolled in a variety of undergraduate and graduate programs.

### Business Challenge:

Customer wanted to implement a Data Warehousing solution for their PeopleSoft Financial, Human Resource and Campus Solutions Applications. They had limited internal expertise to implement the PeopleSoft EPM Data Warehouse.

### The ERPA Solution:

Customer engaged ERPA to provide supplemental staff to support their PeopleSoft EPM Data Warehouse in conjunction with Oracle Business Intelligence (OBIEE). ERPA provided a DWH Solution Architect in conjunction DBA, System Administration, DataStage ETL and Development support from our Remote Enterprise Solutions Team in Dublin, Ohio.

### Business Benefits:

- High Availability Production Data Warehouse
- Enabled Strategies to Purge and Archive PeopleSoft Data
- Advanced Data Visualization and End User Manipulation

## Why ERPA?

500+ Employees

1500+ Projects

99% Customer Satisfaction
