

CLOUD MANAGED SERVICES FOR PEOPLESOFT

UNLEASH A BETTER PEOPLESOFT ON AWS

Today, organizations are challenged with finding efficient, cost-effective ways to maximize the investment in and extend the longevity of their PeopleSoft applications, while determining their future technology roadmap.

Whether your organization is taking full advantage of Oracle's 10-year commitment to support and enhance PeopleSoft, or focusing to a SaaS solution deployment like Workday, ERPA's Cloud Managed Services offer flexibility, reliable service delivery, and performance guarantees to empower your strategic initiatives.
